Well-known site architecture analysis

1. Explore the mysteries behind Google App Engine (1) -Google core technology
2. Explore the mysteries behind Google App Engine (2) -Google overall architecture guess
3. Explore the mysteries behind Google App Engine (3) - Google App Engine Introduction
4. Explore the mysteries behind Google App Engine (4) - Google App Engine architecture
5. Explore the mysteries behind Google App Engine (5) - Datastore Design
6. Explore the mysteries behind Google App Engine (6) - to sum up
7. Amazon site architecture learning summary
8. Amazon site architecture learning summary
9. Amazon's Dynamo architecture
10. The application servers scale eBay
11. EBay's data
12. Architecture experience from Taobao
13. Yahoo! Community Architecture
14. Based on Facebook and Flash platform application architecture to resolve (a)
15. Based on Facebook and Flash platform application architecture to resolve (b)
16. Based on Facebook and Flash platform application architecture to resolve (c)
17. Facebook photo storage architecture study
18. facebook image storage architecture technology full resolution
19. Facebook Data Warehouse Secret: RCFile efficient storage structure
20. Facebook architecture Learning
21. Facebook architecture Learning
22. Renren mobile development framework
23. Inside QQ space deep technical architecture of
24. Twitter schema extensions: 100 times performance increase
25. Twitter site architecture study notes
26. Large SNS website background architecture Home and Abroad
27. Youku architecture study notes
28. Youku (Youku.com) architecture experience
29. YouTube Architecture Learning Experience
30. YouTube schema extensions
31. Digg site architecture
32. Digg site architecture
33. WikiPedia technical architecture study notes
34. Yupoo site architecture learning summary
35. Flickr site architecture analysis
36. Flickr capacity planning learning experiences based on LAMP
37. MySpace System Architecture
38. Recalling rough road infrastructure MySpace
39. Challenge No. --1 air refueling shop B2C electricity supplier system evolution path
40. Another legend PlentyOfFish.com .NET website
41. Learning watercress good example - sitemap
42. 37Signals architecture

43. Tailrank site architecture
44. SmugMug architecture introduced
45. High concurrency architecture Learning PHP website Poppen.de
46. Drupal architecture with large sites
47. Mobile home site architecture - high Chunhui dialogue
48. Mobile home site architecture design and evolution
49. Learning of architecture design HeroKu
50. Summary notes the major sites architecture
51. Petals Network Architecture introduced
52. On a large site architecture experts

Architecture Analysis and Design

1. Architecture Beauty - network architecture in an open environment
2. Case Study: distributed architecture based on message
3. Pattern-based architecture review
4. Irregular application design a new generation of super multi-threaded architecture
5. From simple to complex: a large Rails and VoIP system architecture and deployment practices
6. Expert Perspective IT and Architecture
7. Architecture corruption Mystery
8. My eyes cloud architecture
9. Evolved from 100PV to 100 million PV site architecture
10. Site architecture design
11. On large sites Dynamic Application Framework - given a degree have casually change the system, but does not automatically retain the original data abuse, I suggest that you manually back down.
12. Big art - architecture design of large sites
13. Internet site architecture design what I see
14. Cock wire programmer how to create millions of Japanese PV site architecture
15. Design REST-style MVC framework
16. Clustered architecture practice - the first test Memcached
17. BigPipe, speed up your page loading
18. Step by step to build a large site architecture
19. Image storage architecture Learning: cache, the architect of the beautiful small three
20. To rapid expansion? Re-structure it!
21. Large Rails and VoIP system architecture and deployment practices
22. LAMP site architecture plan analysis
23. Large site architecture and evolution of knowledge
24. Related site architecture PPT, finishing Articles
25. Talk about the system architecture of large high concurrent high load site
26. Thinking of software architecture design
27. Video streaming service architecture parsing
28. Rails Architecture Overview
29. CDN self defense DDoS (1): Know thyself, building lasting defense
30. CDN self defense DDoS (2): architecture design, cost and deployment details
31. CDN self defense DDoS (3): Architecture subsequent improvement

32. Non-system technology amateurs - Download

33. SMEs application of knowledge

34. SMEs application architecture system

35. "Architect" magazine --InfoQ introduced to the electronic magazine. It looks pretty good.

36. System design specification (architecture, summary, detail) directory structure --D Guage very good at writing documentation, so the stream a document template.

The technology behind architecture

1. CDN (Content Delivery Network) technology principle

2. Golden Rule fourteen high-performance websites

3. Large sites with back-end web server cache architecture

4. Facebook big performance improvement secret: HipHop

5. Talking Squid storage architecture in the picture application

6. Secret Taobao self-developed file system --TFS

7. Technical preparations for one million site visits

8. Talk about the load balancer large sites, db proxy and db

9. Motivation and design architecture describes in simple terms node.js game server development framework --Pomelo

10. Architects must know the top ten scalable architecture

11. (1) general questions Memcached FAQ

12. Problems Memcached FAQ (2) of the cluster architecture

13. (3) performance and client libraries aspects Memcached FAQ

14. Problems Memcached FAQ (4) option, Item expired and namespace aspects

15. Share some information (focusing on Linux)

16. MapReduce principle set forth in JavaScript

17. D Guage save share some of the better Web development information

Database schema

1. Large high concurrent high load web applications architecture - Database architecture strategy

2. Shoot sub-library network architecture design

3. Datomic architecture

4. Low-cost and high-performance MySQL architecture cloud data exploration

Plug-in architecture

1. The key factor of about Plugin Framework

2. Plugin Architecture Brief

3. Eclipse (3.1) Plugin Framework (OSGI-based Plugin Architecture)

4. OSGI with Plugin Architecture

5. Reflection plug-in architecture system

6. Based summary Equinox Development System

7. Declarative Services - Service-Oriented Component Model

8. Service-Oriented Component Model (SOCM)

9. Thinking widget development framework

10. Based on Eclipse Equinox plug-in framework: TPF

problem

1. WordPress plugin architecture is kind of how?

Permissions Architecture

1. Talk privilege system I
2. Talk Permissions Overview System series, the purpose and needs
3. Talking about the technical strategy and privilege system based implementation of RBAC
4. Talking about the system of permissions ACL-based implementation
5. Talking about the privileges of the system at the end of articles (open-source products, personal views, knowledge systems)

Full Article This article was from the Read D Guage sharing information architecture
